San Diego Regional Forecast Series 15

2022-2060

Population

Employment

Households

San Diego Regional Population

San Diego Regional Population

Population Declining

3.28M persons

- 5th-largest U.S. county
- Slowing growth to 2042, when population declines

Young but Aging

37.3 years median age

- Aging population
- 2060 median age: 42 years

Diversity Increasing

No racial or ethnic majority

- 43% White, 34% Hispanic, 13% Asian, 4% Black
- Growing Asian population

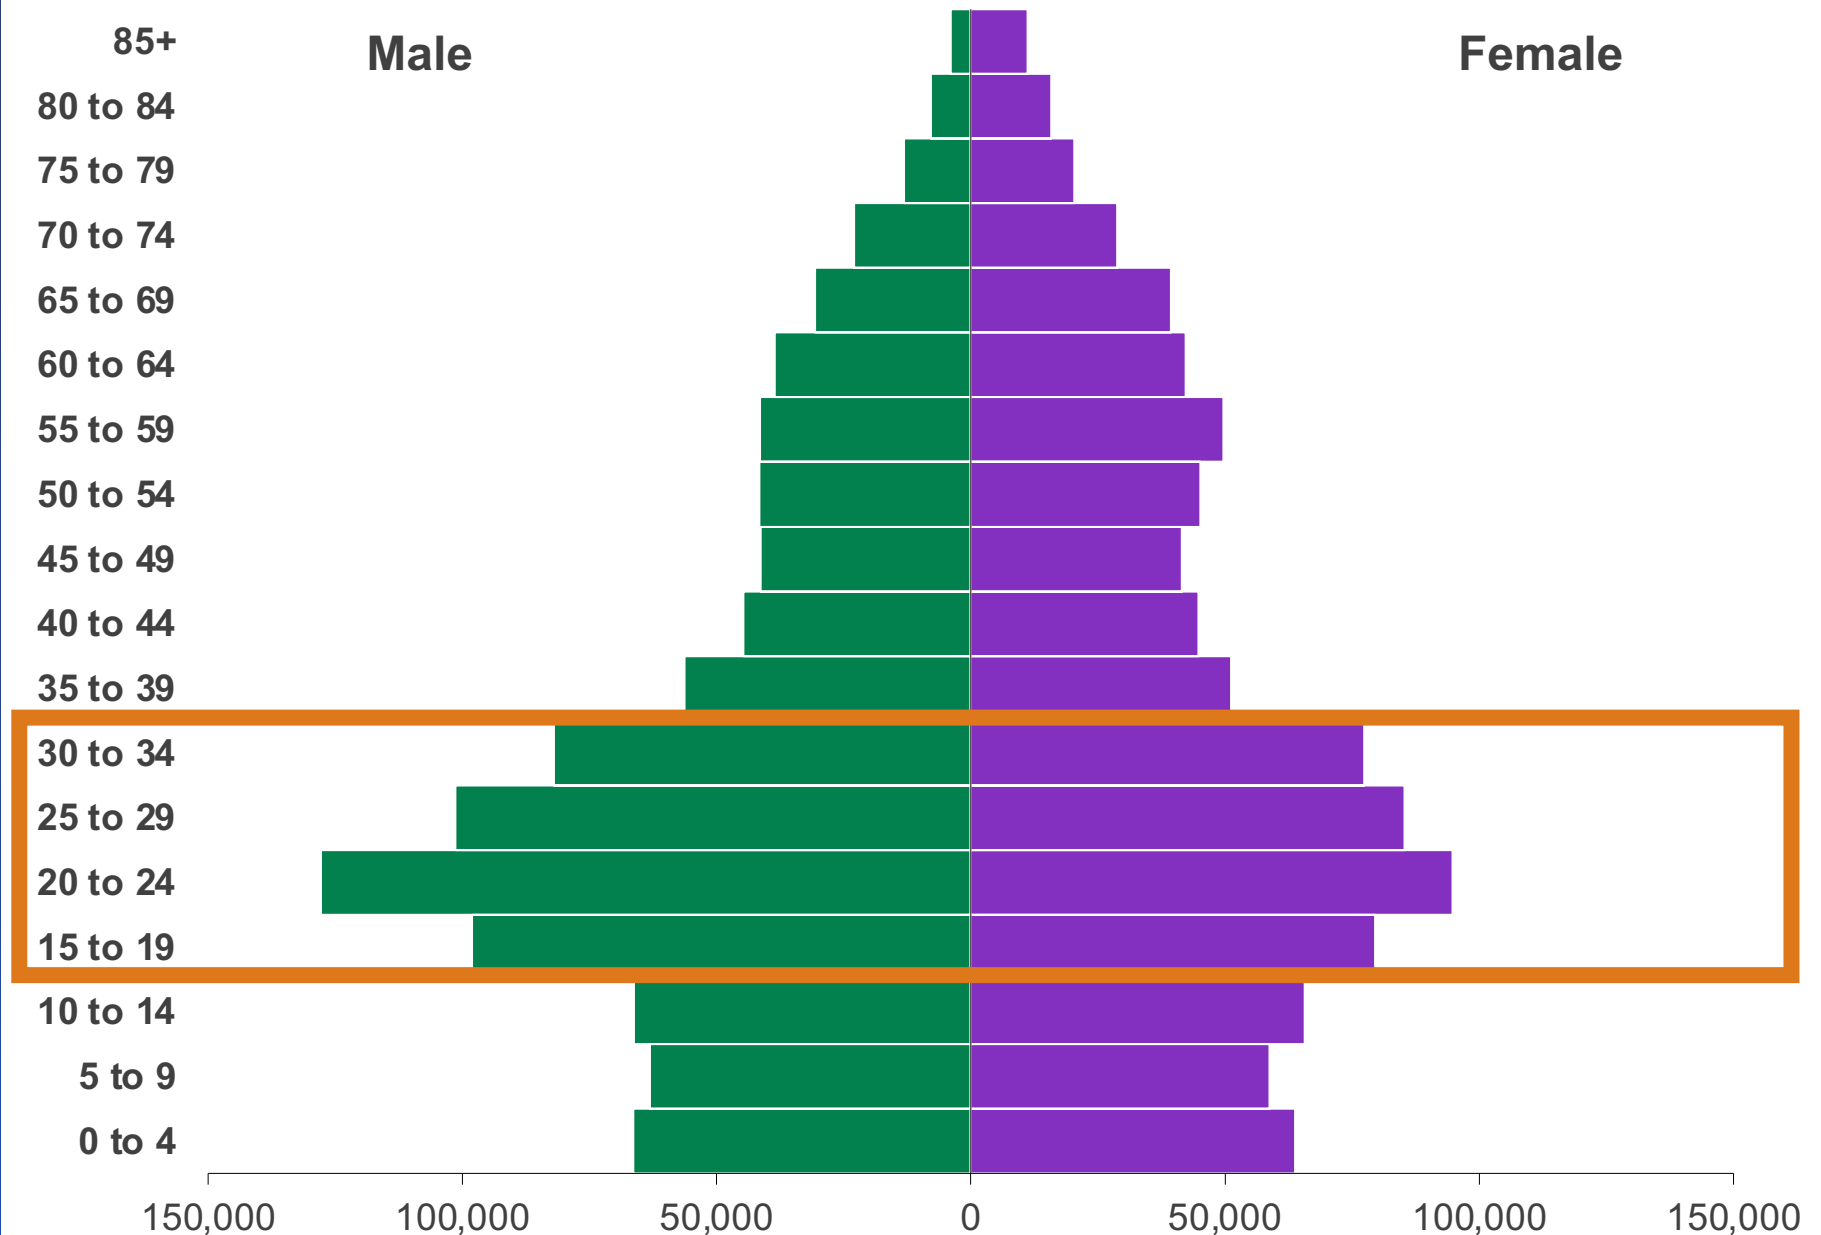

San Diego Region

1980 Population
1.86 million

Born between 1946 and 1964, **Baby Boomers** were ages 16 to 34 in 1980 and made up 40% of the population.

The “Great Inflation” from the mid-1970s to mid-1980s created economic hardship and, for many, postponed building a family.

Median age: 28.9 years

San Diego Region

2000 Population
2.81 million

The late 1980s economic recovery had San Diegans starting families.

1990 fertility rate:
83.8 births per 1,000 women, ages 15-44.

Women were also building careers, delaying childbirth, and having fewer children.

2000 fertility rate:
69.8 births per 1,000 women.

Median age: 33.4 years

Source: IPUMS, 1980; Decennial Census DEC Summary File 3, 2000; County of San Diego, Health and Human Services Agency, Public Health Services, Maternal, Child and Family Health Services

San Diego Region

2020 Population
3.33 million

Nearly 1 in 3 San Diegans are Age 50 or Older (32%)

About 700K (20% of population) are child-bearing age, but are having fewer children

2020 fertility rate:
58.2 births per 1,000 women

Median age: 35.4 years

San Diego Regional Forecast

2040 Population
3.43 million

San Diego population is approaching its peak in 2042.

Just 21% of the population is Age 19 or younger.

2040 fertility rate:
51.4 births per 1,000 women

Median age: 40 years

Source: SANDAG San Diego Regional Forecast, Series 15, 2022-2060

San Diego Regional Forecast

2060 Population
3.33 million

More than 2 in 5 San Diegans will be Age 50 or Older (41%)

Nearly 1 in 4 San Diegans will be Age 65 or Older (23%)

Fertility rate: 51.3

Median age: 42 years

Source: SANDAG San Diego Regional Forecast, Series 15, 2022-2060

The background of the slide is a dark blue-to-purple gradient. Overlaid on this are faint, semi-transparent data visualizations. These include a 3D bar chart with vertical bars of varying heights, a line graph with a fluctuating curve, and various numerical values and symbols like "+11,00.00" and "96,797" scattered across the scene, giving it a high-tech, data-driven appearance.

San Diego Employment

San Diego Regional Forecast - Employment

Growing Labor Force

More people work

Despite declining population, **labor force participation** increases

More Dynamic Economy

New in Series 15 Forecast

Measuring **total jobs**, including “gig” workers, captures diverse economy

Delaying Retirement

More people work longer

Longer lifespans, continuing income needs, and more opportunities **extend careers**

San Diego Regional Forecast Series 15

Employment

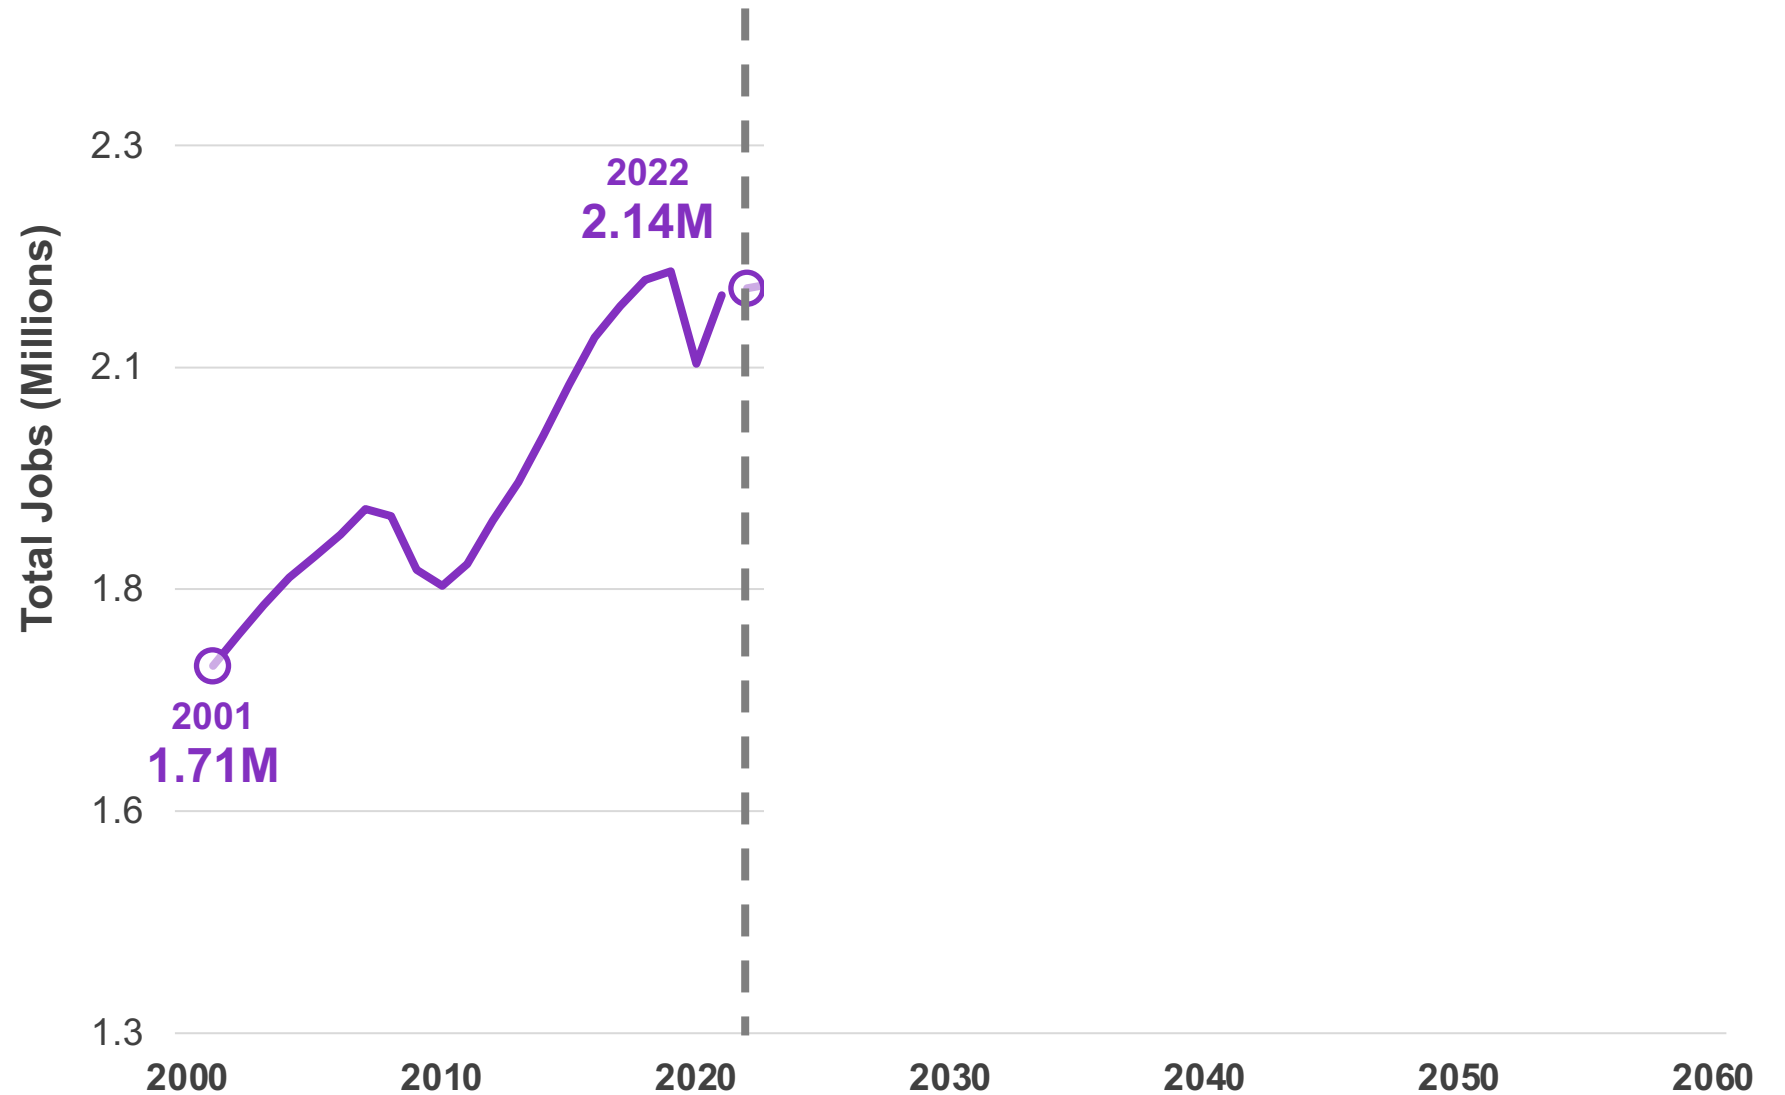

Despite population increasing just 41K (1.2%) between 2022 and 2060, jobs grow by 280K (13%) because of **higher labor force participation rates (LFPR)**.

Ages 25-64

LFPR rises 74% to 79%

Ages 65 and Older

LFPR rises 18% to 23%

Improved measure of San Diego jobs

Accounts for all jobs, including **non-wage/salary workers**, such as independent contractors, commission-only workers, and the “gig” economy

Source: Bureau of Economic Analysis; Bureau of Labor Statistics; SANDAG San Diego Regional Forecast, Series 15, 2022-2060

Proportion of Wage/Salary and Non-Wage/Salary by Industry

Key sectors employ many non-wage/salary workers (2021)

Note: Only the top eight civilian sectors employing the highest percentage of non-wage/salary workers are shown
 Source: Bureau of Economic Analysis (2021), Bureau of Labor Statistics (Quarterly Census of Employment and Workers, 2021)

San Diego Regional Forecast - Employment

Professional, Innovation, and Healthcare will drive the economy

San Diego's \$268 billion economy grows to \$497 billion by 2060

Driving Sectors

Professional (20% of total jobs), Innovation (18%), Healthcare (14%), Tourism (10%), and Military (7%)

Professional (Real Estate, Finance and Insurance, Business) and **Innovation** (Life Sciences and Biotech) support higher income and longer careers. **Healthcare** overtakes **Retail** to meet the needs of an aging population.

Jobs by Sector (2060)

Note: GDP is 2021\$

Source: SANDAG San Diego Regional Forecast, Series 15, 2022-2060

San Diego Regional Forecast - Employment

Innovation and Healthcare lead job growth

San Diego Regional Forecast Series 15

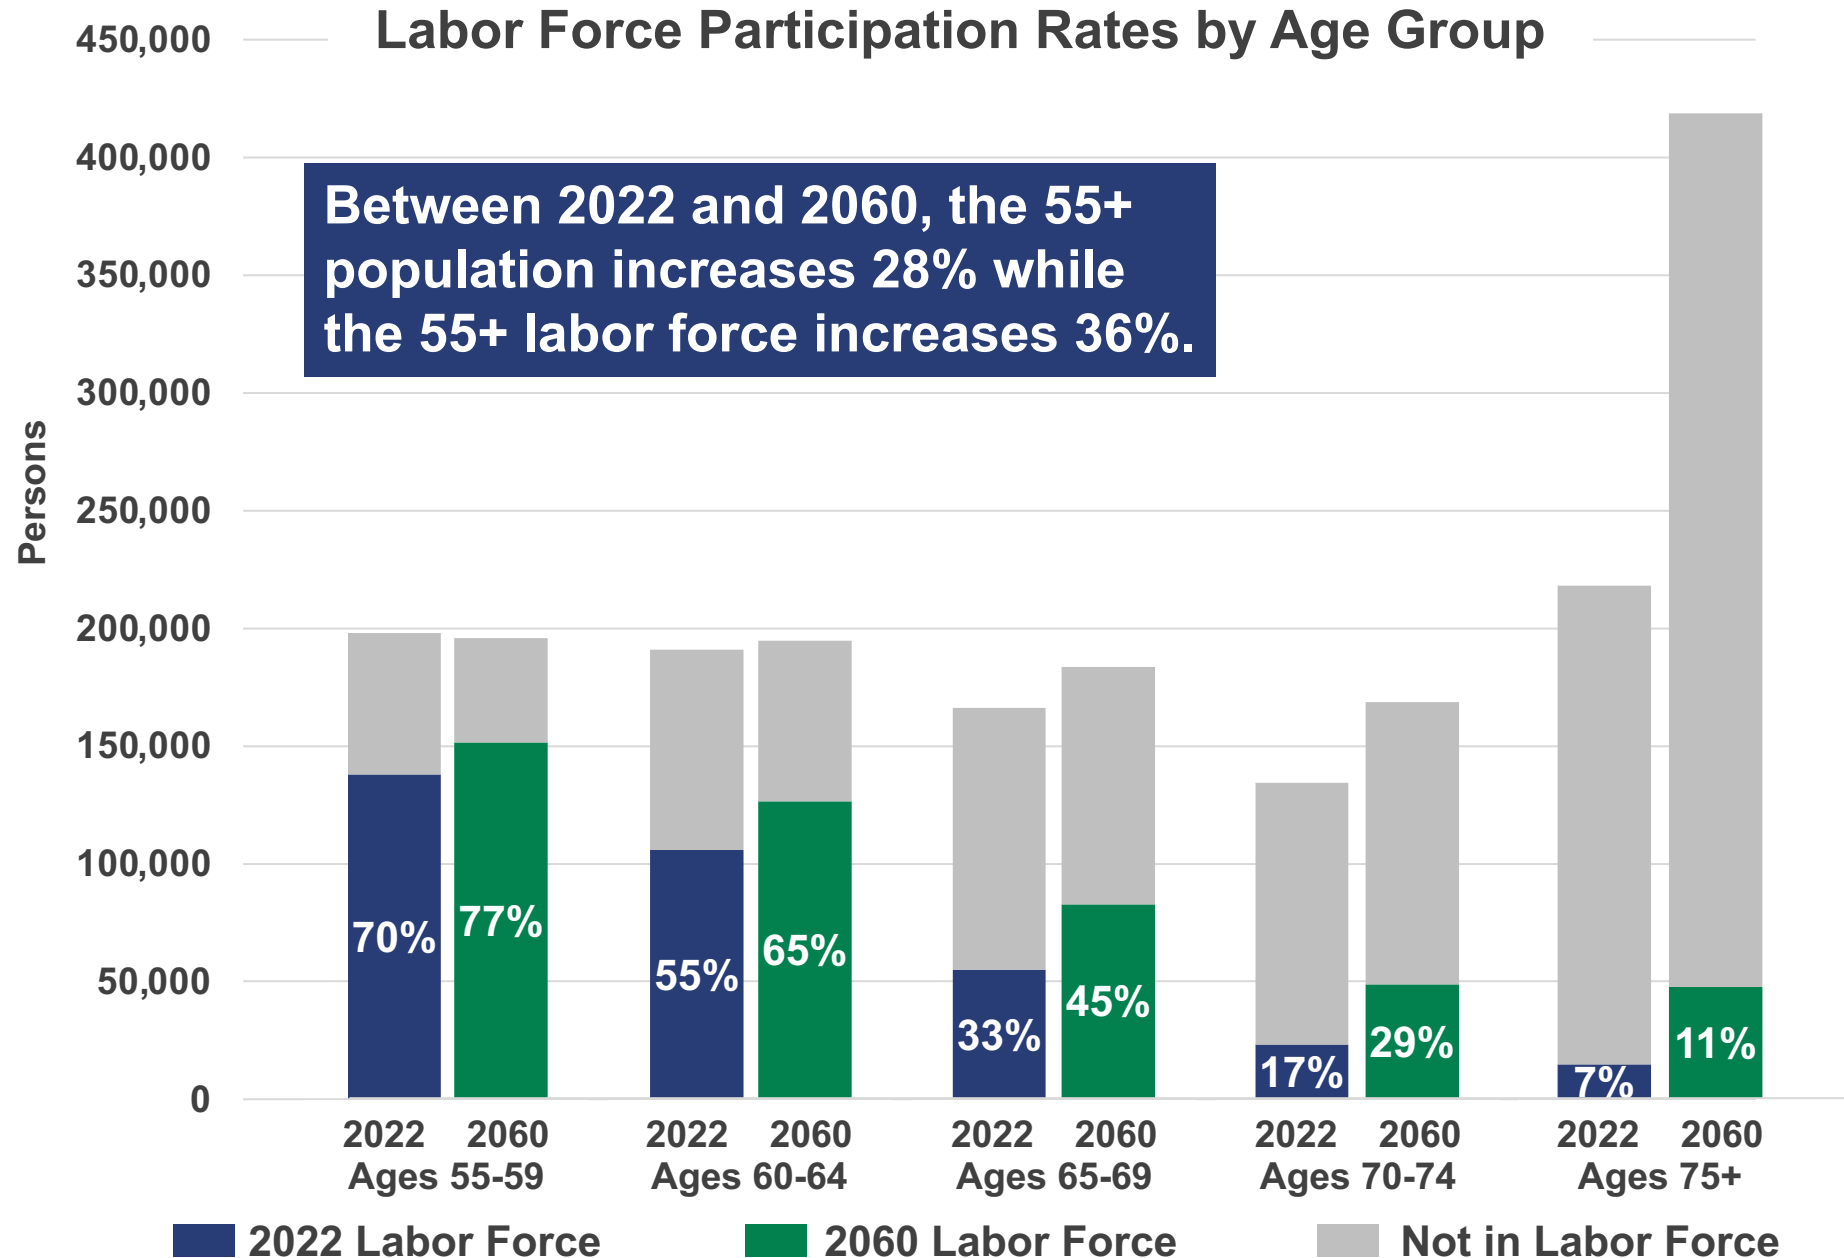

Age 55+ Labor Force

Reasons for working

- Limited retirement savings
- Pension, social security incentives for delaying retirement
- Seeking activity, purpose

Evolving social norms

- Less age discrimination
- Improved longevity
- More opportunities in knowledge-based sectors and for contract work/self-employment

Source: SANDAG San Diego Regional Forecast, Series 15, 2022-2060

San Diego Households

San Diego Regional Forecast - Households

Household Formation

Households increase through 2048 and change with the aging and more diverse population

Household Composition

Changes in household size and living arrangements show cultural patterns associated with aging

Senior Living

Older San Diegans age in place and more are choosing to live alone or move in with their children

San Diego Regional Forecast Series 15

Households

Household formation growth (12%) outpaces population growth through 2060.

Households peak at 1.34M in 2048, then decline

Average household size:
2023: 2.79 persons
2060: 2.53 persons

San Diego Regional Forecast Series 15

Households

Household formation growth (12%) outpaces population growth through 2060.

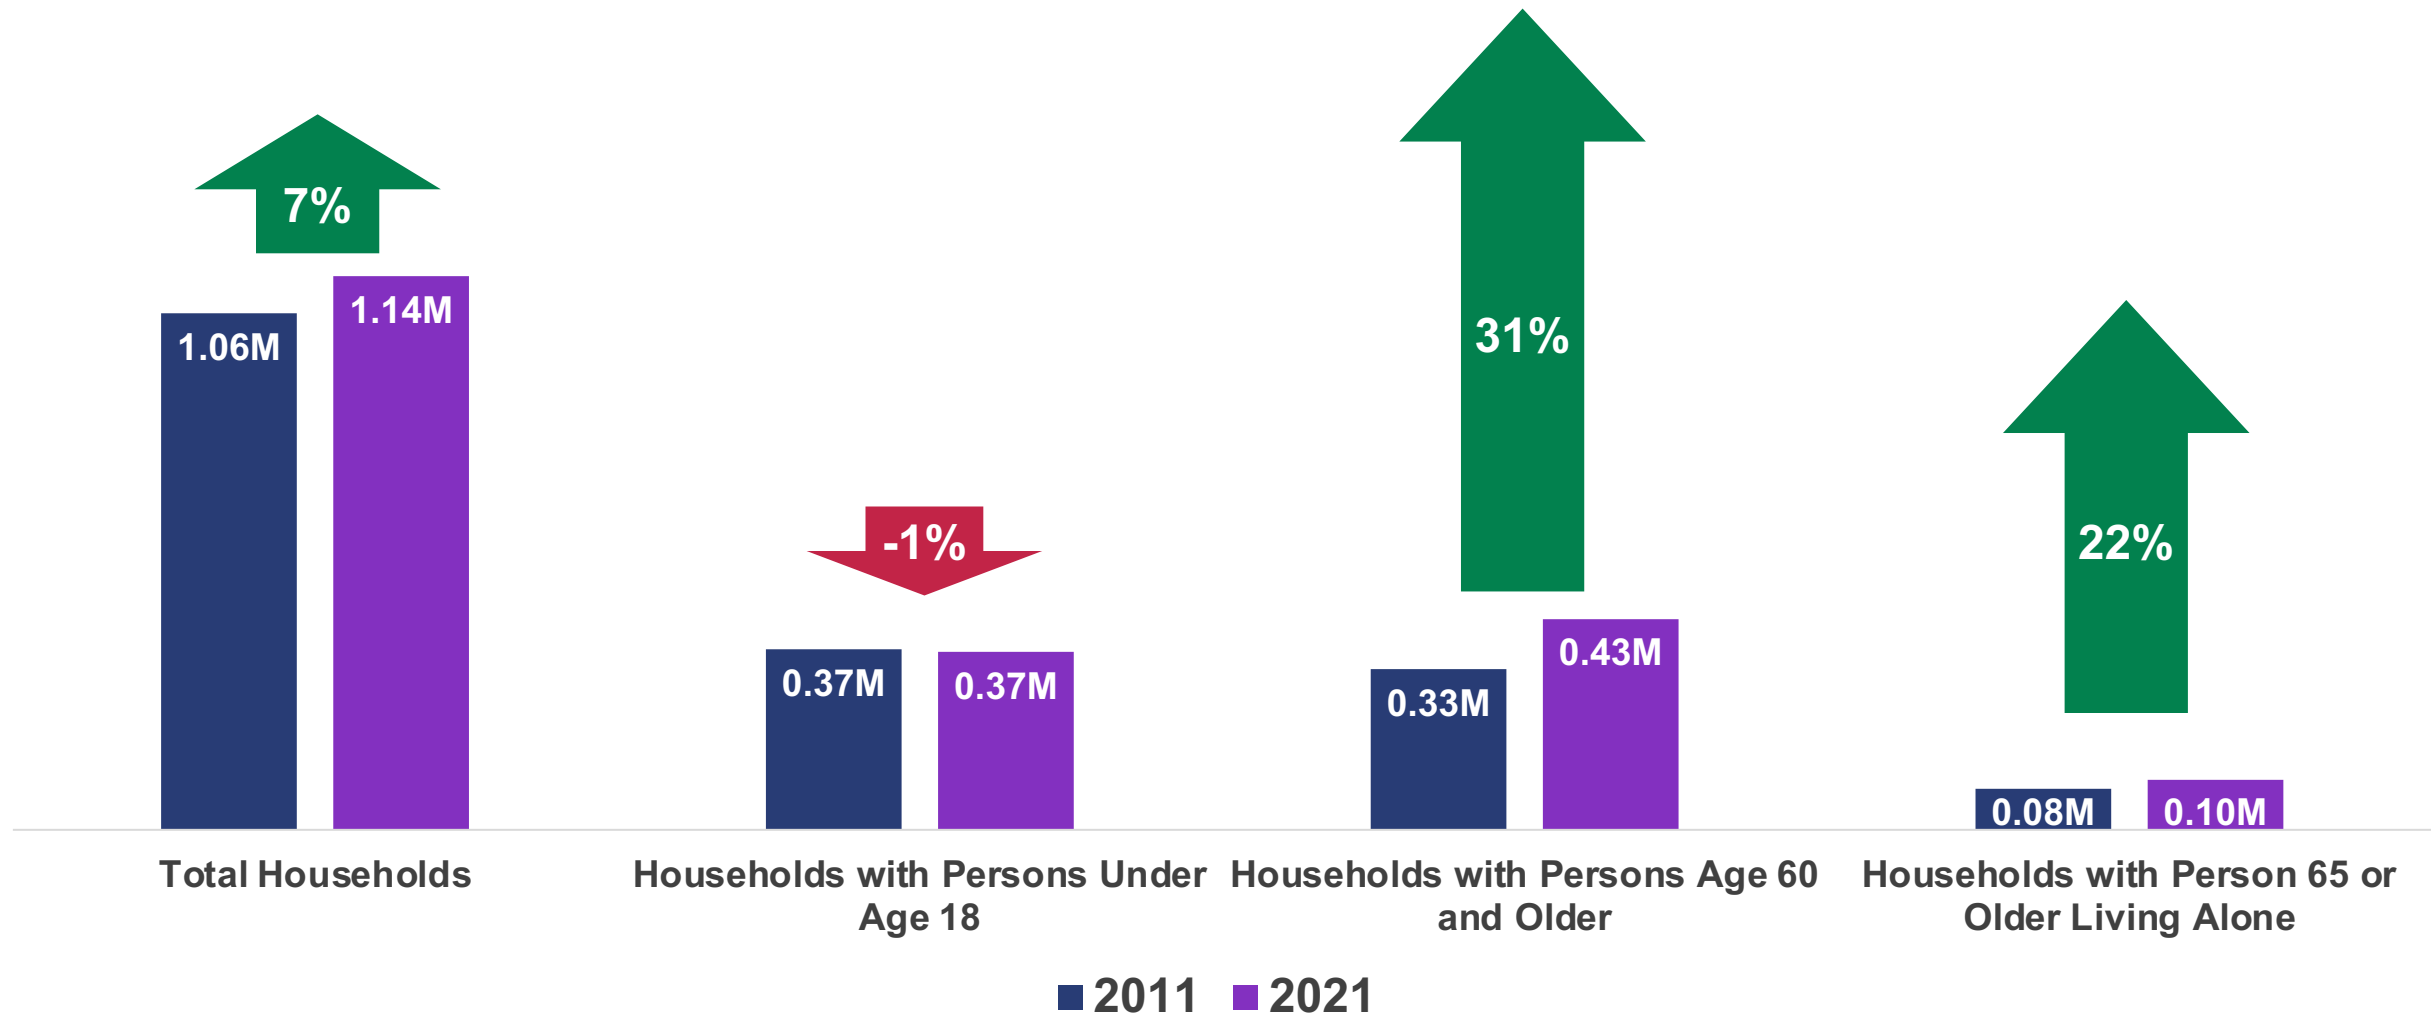

Households peak at 1.34M in 2048, then decline

Average household size:
2023: 2.79 persons
2060: 2.53 persons

Household Characteristics 2011-2021

Households with persons age 60+, seniors living alone are trending upward

San Diego Regional Forecast Series 15

Households

Average Household Size		
Race/Ethnicity	2023	2060
White	2.30	2.12
Hispanic	3.56	2.88
Black	2.58	2.41
Asian	3.04	2.91
Multi-Race	3.53	3.11
Other	2.97	2.61

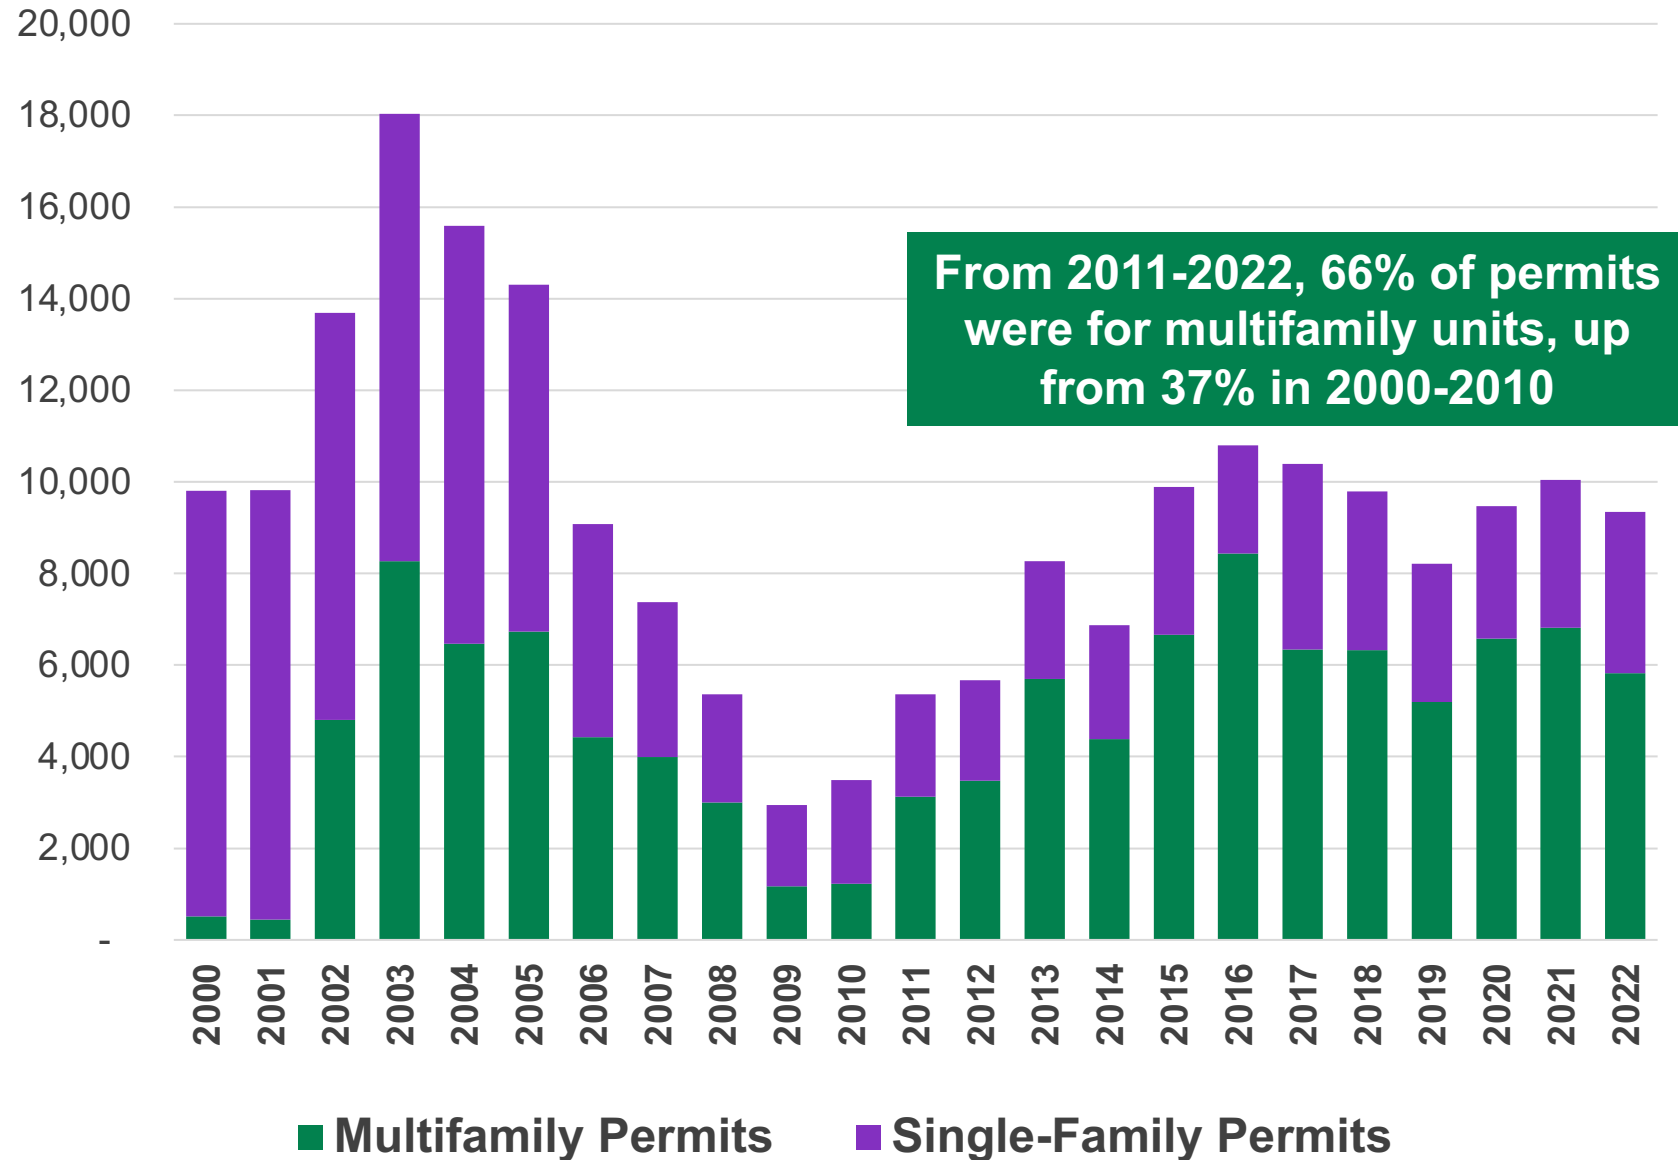

San Diego Region Housing Permits 2000-2022

As the population and household composition changes, the housing mix will also adjust.

Multifamily housing has been on the rise, given the housing shortage and land-use constraints.

Housing Permits by Type (2000-2022)

Source: California Employment Development Department, Labor Market Information, Historical Data on Housing Permits, 2022

San Diego Regional Forecast Series 15

Housing

Housing stock is projected to rise at a similar pace to households through 2060

San Diego Regional Forecast Series 15 Summary

San Diego Regional Forecast Series 15

Summary

Population

Very slow growth is projected before 2042, when population declines. Population continues to age and become more diverse.

Employment

Job growth continues as people work longer careers. Professional, Innovation, and Healthcare sectors drive strong, diversified economy.

Households

New households and changing living arrangements call for greater variety in housing mix.
