

## STC Traffic • Job Posting

### Civil Engineer

**Date: 3/4/2024**

STC Traffic, Inc. (STC) is headquartered in Carlsbad, California and provides traffic engineering, transportation planning, and Intelligent Transportation Systems (ITS) consulting services to public agency clients throughout California. STC invests in staff by providing communication skills training, management training, leadership training, support for professional organization membership and participation, staff and vendor lead lunch and learns, and opportunities for cross-discipline training.

### Job Description

San Diego County transportation/traffic engineering firm with established and diverse clientele is seeking a mid-level registered civil engineer with a minimum of five years of experience on multi-disciplinary transportation projects. Experience in preparing civil plans, specifications and cost estimates is expected, and multi-modal transportation design skills and experience are also considered highly desirable. The selected candidate will be supported and mentored by 30+ year experienced staff and will ultimately assume responsibilities as senior staff transition to part time, as-needed roles. In addition to civil design, responsibilities will include client management, proposal preparation, long range marketing, mentoring/supervision of junior staff and cross training on a variety of traffic and transportation engineering tasks. Position is a hybrid office/remote assignment, with most of the work occurring in San Diego County but including other projects located throughout Southern California.

This is a full-time position reporting directly to the Principal Manager and located at our office at 5973 Avenida Encinas Suite #218, Carlsbad, CA 92008.

STC provides a rich array of programs and benefits to help its employees advance their careers and enhance the quality of their lives. Our comprehensive compensation package includes full-time employment, company paid medical, dental, and vision coverage; life insurance, long-term disability insurance, 401(k) plan contributions; paid time off, and bonus incentives. STC offers flexible work schedules, extensive training, mentoring programs, employee resource groups, and much more!

For over 15 years, STC has served clients throughout the Southern California region, nearly 90% of which are focused in the public sector. We model our operations to replicate and support Engineering and Public Works Departments by offering licensed professional Civil and Traffic Engineers, Transportation Planners, former City Traffic Engineers, and Traffic Signal Systems and Operations Specialists. STC staff have the specialized experience necessary to deliver a wide range of capital improvement projects.

*Pay is commensurate with experience.*

*STC is an affirmative action / equal opportunity employer.*
