

Joint APWA/ASCE Imperial County Meeting

WEDNESDAY, SEPTEMBER 9, 2026 | 11:30 am - 1:00 pm

THE LIFECYCLE OF A RAINDROP

Managing Water from Capture to Reuse

When rain falls on a site, it must be managed efficiently to reduce flooding, replenish groundwater, and create opportunities for water reuse. Learn about innovative solutions that support every stage of the stormwater cycle.

Stage 1:
Groundwater Recharge

Stage 2:
Stormwater Detention & Retention

Stage 3:
Water Conveyance & Reuse

SPEAKERS

AVERY SCOTT
Sales Engineer - Southern California

MITCHELL THOMAS
Southern California Regional Sales Manager

JOSH ROBERTS
Public Business Development Manager
